I have a major issue with the last second nature of this agenda, especially now that I see it has a NEPA component. I was under the impression that this was just an endangered species call. As you know I am not available but would appreciate it if you could convey our strong interest in discussing the NEPA process with the Corps in an interagency setting. I suggest we stay on the line for the entire call if we can staff it.

Timothy L. Timmermann, Director

Subject: NECEC Interagency Discussion

Call-in number is 888-328-7940 access code 6706793# (Gerry - please verify)

The primary focus of the meeting will be to discuss the pending Section 7 Consultation. However, this will also be an opportunity for CMP to provide general project updates. Updates are scheduled first so that EPA and/or DOE can drop off the line as necessary.

Rough agenda for this afternoon's discussion:

1. General project update - CMP Team
2. Corps process update - Jay Clement
 - Public notice
 - NEPA review
3. General Discussion - All
 - Project timeline
 - Review updated project impacts
 - Alternatives update
 - Mitigation summary
 - Next steps
 - DOE Requirements
4. ESA Consultation - All (minus EPA?)
 - State/Federal coordination to date
 - Status of applicant-assisted BA
 - Information needs
 - * Clearing limits (for NLEB)
 - * Lynx cover type mapping
 - Next steps
 - Timeline
5. Action Items - All
